

The day could not have been better for the Return to Lagoon Bay Flyin and Bay Whaling historical walk. Over 40 people turned up in twelve aircraft and a six vehicle convoy that arrived and drove down the grass strip to the shack following not long after the last aircraft touched down for a Barbecue Grill lunch and salads.

Shack Group Leader, Dave Cooper, made everyone most welcome. He and Peter Green had been in from the day before getting things ready for the Aero Club visit. The Shack Group is only permitted to drive into the site twice a year for the purposes of maintenance, however special arrangements were made for the vehicular convoy of visitors to use the first maintenance trip for the year to coincide with the Return to Lagoon Bay Flyin.

Dave Cooper welcomes everyone for lunch and the historical Bay Whaling days interpretation walk around Lagoon Bay.

Three of the 6 lucky lunch ticket winners, Top Gun for Top Gun Terry Mulholland, Vanessa Gardner, a nice bottle of Chardy, & John Breaden The Aviator.

“When the shack was built, the ACST decided to be one member and for that share and contribution the Club is offered a Flyin BBQ each year. This hasn't been done for a while, hence the title back to Lagoon Bay.” joked Dave

We have held very good functions here over the years, even flying competitions. However today is unique with a large field of aeroplanes, people and cars and it's what we want to use it for once a year.” David said.

“Aero Club members built the strip and the Club paid for it's construction and we have had the use of it ever since. It is very important Pilot's do the right thing by the landowner so our use should continue. Any Club member with the endorsement of a Flying Instructor can use the strip and take a stroll over to the beach, but they are not to walk around the farming property.” David added.

To have use of the shack you have to be a paid up Shack Group member and financial member of the Aero Club, if you are interested call Dave Cooper for more details 0438 346 263.
