BRUNY TIME TRIALS

Sunday July 16th starting at Cambridge Airport at 11.00am a mini Time Trials and Barbecue Flyin to Bruny Island. Lunch under the marquee with hot food, steaming tea & coffee and an intriguing historical interpretation on the 1792 landings by French Explorer Bruni d'Entrecasteaux and subsequent history of the Channel and Recherché Bay areas will be a feature of the luncheon. Cost \$20 pp with prizes being awarded 4.00pm at the Clubrooms.

PRIZES to be WON in the TIME TRIALS

1. Dinner for two at Le Provencal French Restaurant
2. 30 minutes C172 hire or a Trial Flight in the Jabiru J160
3. \$50 Café Voucher to a selection of French pastries from Jean-Pascal Patisserie
4. \$50 Café Voucher to a selection of French pastries from Jean-Pascal Patisserie

SUNDAY JULY 16th 11am Cambridge

SUBSCRIPTIONS DUE

The committee has decided against a raise in the annual Aero Club of Southern Tasmania subscription fee. So the good news is, in a world of escalating costs your annual subscription is still only \$145. which also entitles you to your monthly edition of Spinner.

To save time and inconvenience please phone through to the office 6248 5370 with your credit card details and pay your annual subscription account now. You can still pay by cheque in the post or in person at the office. Prompt payment will save administration time and keep everything well oiled and moving along. Any savings we can make helps you the members.

If for some reason you can't pay aircraft hire or fuel on the day and receive an invoice, a \$5.50 accounting charge will be applied. If you would rather save the \$5.50 please pay at the office on the day, or by phone first

ACST President Don Prairie

thing the next morning. This avoids the double handling of the account, postage and so on.

While I'm talking money, if the escalating cost of flying is making you think twice about your passion or hobby, the Aero Club has worked with CASA to be the first Club in Australia to be able to teach and issue flight certificates operating a recreational aircraft

in a primary control zone. The fibreglass Jabiru J160 is available for conversions as "the way of the flying future".

To all you old Cessna drivers, come down to the Club and experience this little fibreglass speedster, 2 people comfortably side by side at \$98 inc GST per hour. Seven hours endurance at 105kts with only 15 litres per hour fuel burn. Every three hours in the J160 you will actually save the cost of one hour's hire in a Cessna C172 at \$160.

Phone the office 6248 5370 and book a flight, see how surprised you will be, the J160 will blow away all your thoughts and myths about Recreational Aircraft. We Pilots just want to be in the air, in control, weaving around the sky, and this little gadget does all that. Think of it this way "If it looks like an aeroplane, flies like an aeroplane, it must be an aeroplane." Safe Flying.
