

VOLUNTEERS MADE IT HAPPEN

Marilyn and Robbie Allcock making windows shine

The Top Gun Tasmania Cambridge Open Day was a great success this year, due in part to the terrific weather conditions but it was the Club Volunteers who turned up and donated their services on the Saturday setup morning and on the Sunday of the event.

This year marking the third time the Club has undertaken the larger sponsored version of the Open Day event also the first time all the work was done by the Club. This year we operated the gate and successful sausage sizzle and soft drinks sales.

Note the cars parked both sides of Kennedy Drive

Don Prairie, spent some days preparing the work gang sheets and timeline for all the jobs that were needed to be done. Spread over a week, this took the pressure off and meant the bulk of the setup and cleaning day on Saturday was completed in just three hours. The packup was completed in only 90 minutes, a very coordinated effort.

Naming everyone who said "can I help" is going to be a bit hard, but a couple of stories, one bloke turned up with his van and said "I'm here, I've got all my tools, what do you want done." Another bloke said "I've got my ute, got an hour on my lunch break, I've got a rubbish skip, what do you want taken away?"

THANKS TO OUR SPONSORS

Undertaking an Open Day requires a lot of help, not only labour but services as well. The Aero Club recognizes the valuable contribution made by the following companies. Top Gun Tasmania for the warbirds display. Don Wells through Airlines of Tasmania for supporting us in opening Cambridge to the public. Our partners Freycinet Air, Leigh Hornsby at Helicopter Resources for opening the Hangar and putting a machine and gear on display, Clarence City Council for toilets, bins and fencing, Southern Cross Television, Radio Heart 107.3 and The Mercury Newspaper for their promotion of the event to the public.
